**PRESIDENT PLEADS  
FOR REPEAL OF THE  
PANAMA TOLLS BILL****Urges Congress to Repeal  
Favors Given Ameri-  
can Ships.****FOREIGN POLICIES IN BALANCE****Wilson Declares He Will Not Know  
How to Proceed in Other Diplomatic  
Affairs if Exemption Is Not Over-  
ruled. Says Position Is Untenable.**

WASHINGTON, March 5.—President Wilson personally appeared to Congress assembled in joint session today to maintain the national honor of the United States in upholding treaty obligations by repealing the Panama tolls exemption against which Great Britain protests. He asked Congress to do that "in support of the foreign policy of the United States," and added that an exemption for American ships not only was "a mistaken economic policy," but was in "violation" of the Hay-Pauncefote treaty.

"I shall not know how to deal with other matters of even greater delicacy and nearer consequence if you do not grant it," he said. "The large thing to do is the only thing we can afford to do, a voluntary withdrawal from a position everywhere questioned and misinterpreted. We ought to reverse our action without raising question whether we were right or wrong, and so we must reverse our position for honor and redemption of every obligation without quibble or hesitation."

President Wilson's address, the shortest he has yet delivered to Congress—exactly 4.9 words—was as follows:

"Gentlemen of the Congress: I have come to you upon an errand which can be very briefly performed, but I fear that you will not regard its importance by the number of sentences in which I state it. No communication I have addressed to the Congress carried with it greater or more far-reaching implications to the interest of the country, and I come to you upon a matter with regard to which I am charged in a peculiar degree by the Constitution itself with personal responsibility."

"I have come to ask for the repeal of that provision of the Panama Canal act of August 24, 1912, which exempts vessels engaged in the coastwise trade of the United States from payment of tolls and to urge upon you the justice, the wisdom and the large policy of such a repeal with the utmost earnestness of which I am capable."

In his judgment, very fully considered and maturely formed, the exemption constitutes a mistaken economic policy from every point of view and is moreover in plain contravention of the treaty with Great Britain concerning the canal, concluded November 18, 1901, and which has not only been a source of personal vexation to you, but a source of national dishonor and a stain upon the flag."

"I have come to state to you a fact and a situation. Whether you may see any difference of opinion concerning this matter is a matter of course, its meaning is not debated outside the United States. Everywhere else it is regarded as a source of national dishonor and a stain upon the flag."

**CARRANZA BEGINS PROBE  
OVER BENTON AND BAUCH****Will Determine if Englishman Was  
Murdered, and Whether American  
Lives; Opening Headquarters.**

By Associated Press.  
EL PASO, March 5.—Investigation into the execution of William D. Benton, the British subject, and into the disappearance of Gustav Bauch, the German-American, was begun at El Paso today by the Mexican commission appointed by General Carranza, chief of the Constitutionalists. The commission will endeavor to learn whether the arrest and conviction of Benton was made according to the form of law and justice. It is not expected that an examination of the body will be made.

There will be an attempt by the Mexican commission to learn whether Bauch was executed or is still alive. If alive, an attempt will be made to learn his whereabouts. The Anglo-American commission was still awaiting instructions from Washington.

Headquarters of the Constitutionalists government was established at El Paso today. Seventy men, heads of departments and clerks, brought with them a carload of official papers of the rebel government. General Carranza and his cabinet were expected to leave Nogales some time today.

LONDON, March 5.—The policy of the United States toward Mexico occupied a leading place in the newspapers today. The Evening Standard discovered a marked change in the whole trend of American foreign policy. Instead of "friendly isolation" based on the strict letter of the Monroe Doctrine, the United States is now becoming anxious to stand well with the European powers. The government at Washington is apparently, it is believed, involved in intervention in Mexico. It may be that the occasion to carry out her designs on the Philippines and Hawaii, in which event the powers might put the embargo on those designs.

**EXPECT EARLY RECALL****Railroaders Now on Par, Hope  
to Be Given Work.**

Humors are current that following the improvement in the coke trade and its consequent effect upon railroad traffic, the Baltimore & Ohio railroad will recall a large number of trainmen who were furloughed when the slump began.

Though there is no official confirmation of the report, it is generally believed that such action will have to be taken within a short time. A number of young men had left to be turned to town in the conviction that they will shortly have their old jobs back again.

**PLATFORMS A JOKE****Why Not Prohibit Them, Senator Asks,  
Hearing Wilson Speech.**

WASHINGTON, March 5.—The presidential primary bill will be considered by the Senate elections committee Saturday.

"Is there a provision in your bill regarding party platforms?" asked Senator Smith (Rep., Mich.) of Senator Cummins (Rep., Ind.).

"We have just returned from the possibility of such a complete abandonment of the platform of the Democratic party in its last declaration of principles that it occurred to me party pledges being so lightly observed that they might be prohibited by law altogether."

He was referring to President Wilson's address advocating repeal of the Panama tolls exemption.

**COKE MEN TESTIFY  
BEFORE COMMISSION  
ON CAR "SPOTTING"****Hearings Are Held With  
View to Determine  
Cost of Service.****B. & O. MAN SAYS \$1.90 A CAR****Vice President Shriver Submits That  
Figure for the Fairmont Field,  
Which He Declares Is Typical; 800-  
600 Coal Cars Placed Last Year.**

Special to The Courier.  
WASHINGTON, March 5.—Service and costs of placing carsloads of coal and coke to and from plants were taken up at the Interstate Commerce Commission hearing in the advance freight rate case before Commissioner Harlan yesterday.

Testimony was offered by the independent coke operators in the Connellsville region and coal shippers in the Pittsburgh region to define the service performed by the railroads in placing cars at the coke plants and mines for loading, under what is known as the "spotting" arrangement. The operators explained this service as constituting a double movement of pushing the empty cars into position and taking out the shipments, which it was stated varied from 30 minutes to an hour and a half according to local conditions.

In response to the commission's request that the railroads give some information as to the methods pursued in placing cars for loading at coal mines, George M. Shriver, vice president of the Baltimore & Ohio railroad, explained the methods by which his company handles this class of business. Mr. Shriver took as typical the West Virginia territory, taking the rate commonly known as the Baltimore and Ohio rate, which is \$1.90 a car.

As bearing on the possibility of the empty cars received from the east and the west rate distributed to the mines in this region and the loads assembled in the several terminal yards, he showed how cars are taken from the main yards to tracks at various points along the line from which they are distributed to the individual mines by district switch engines which serve from six to ten miles. He estimated that the cost for the engine and crew involved in this work was \$4.05 an hour, or \$4.90 for a ten-hour day, which, applied to the cars handled in the region in October, 1913, represented an average cost of \$1.90 a car.

The railroad official told the commission that last year the Baltimore & Ohio handled approximately 12,000,000 tons, or 240,000 carsloads, of coal out of the West Virginia region and explained how the percentage of the business eastward and westward varied according to the season. As bearing on the possibility of a general charge for spotting cars, Mr. Shriver made inquiry about the total number of cars "spotted" on the Baltimore & Ohio system for the year 1913. Mr. Shriver stated that, based on the figures usually furnished for that year, 1913, he estimated that the railroad company "spotted" approximately 2,000,000 cars, of which 800,000 were in connection with the coal and coke trade in the regions served by the road.

Among the Connellsville region coke men attending the hearing were R. M. Fry, general superintendent of the Orient Coke Company; George Whyte, of the Consolidated Connellsville Coke Company; Charles E. Lehigh, of the Shamrock Coke Company; L. J. Williams, of W. J. Lehigh, of B. B. Lehigh, of the Taylor Coal & Coke Company; W. W. Semans of the Producers' Coke Company; and W. A. Stone, Waltersburg Coal & Coke Company.

**SHOE SHINE WAR****Two Bands Cut Prices for Saturday  
and Sunday Holidays.**

A shoe shine war threatens to disrupt the Greek and Syrian colonies, and to result in a reduction in this one luxury of life. Two bands on Main street one recently opened, have reduced their prices to five cents a shine or seven shins for a quarter.

Hitherto, it has been the custom to charge five cents a shine on all days but Saturdays, Sundays and holidays, when ten cents was exacted. Two bands to break away announced that the price will be the same every day in the year.

Directors of the poor of Fayette county made their monthly inspection of the poor farm near Uniontown yesterday and decided to build a new floor in the offices and hallway of the almshouse. The bids will be taken in a few days.

**STATE DEPARTMENT IS LEFT  
WITHOUT A COUNSELLOR****Moore's Resignation Effective; Posi-  
tion of Solicitor Is Also Unfilled  
Since Folk Quit.**

By Associated Press.  
WASHINGTON, March 5.—John Bassett Moore's resignation was effective today and the State Department was left without a counselor. Mr. Moore prepared to take up his work for the Carnegie Endowment for International Peace and later to resume his place as head of the department of international law at Columbia.

While it was admitted that Mr. Moore's views on the recognition of the Huerta government and the administration's course in other foreign affairs differed from those of his chief, all officials took pains to say that the counselor had carried out his administration policies when once agreed upon.

One phase of the resignation most widely discussed was that Mr. Moore found himself at the end of his administration performing duties usually assigned to officials far below the rank of counselor, and at times learned much regarding the administration policies from newspapers. One of such referred to today was that Mr. Moore first heard of the sending of John Lind to Mexico through the newspapers.

The office of solicitor of the department also is vacant, no successor having been chosen to Joseph Folk, who resigned to become chief counsel to the Interstate Commerce Commission.

**WOMEN ENTHUSIASTIC****Big Class at Gym Discusses Proposal  
for a Y. W. C. A.**

About 50 women attended the callisthenic class in the Young Men's Christian Association gymnasium last night and went through the exercises with much vim under the direction of Physical Director Everhart. So far over 100 women have enrolled in the two classes. Last night the floor was jammed with energetically exercising women.

During the breathing spell and during the period the members discussed the Young Women's Christian Association proposition as outlined in The Courier yesterday. The sentiment was general that the move was a good one, and though no action was taken last night, the women indicated that they would jump in and do their utmost to carry it through.

**STOPS COASTING.****Policeman McDonald Confiscates Big  
Boat on Fayette Street.**

The fine coasting on the hills of town has tempted many boys to violate the penal ordinance, which absolutely forbids the pastime within the city limits unless authorized by a proclamation by the mayor. Patrolman Thomas McDonald warned a number of coasters on the Fayette street hill but they persisted and he finally gave chase.

In their dire peril, the boys deserted their sled, which was a big "bob," so McDonald arrested it and took it down to city hall. The owners are now confronted with a dilemma if they appear to claim their property they will be arrested and fined, whereas if they don't they lose their sled, which is an especially good one.

**WAGON STICKS IN SLEUL.****Bad Condition of Fairview Avenue

One of the wagons of the Connellsville Garbage Company became stuck in the rut on Fairview avenue yesterday afternoon and the rear axle was bent and the spokes of the wheel sprung before it could be released.

A nuisance of long standing near the Crossland residence, which has caused a lengthy controversy, was the cause of a quarrel between the two families. A fence was built from a leak, either in the water main or the sewer pipe, and when the heavy team passed over it broke through. The matter has been under investigation for a long time, but the cause was not discovered.

**EXAMINES MIDWIVES.****Fifteen Take Test Before Doctor

When Mill Is Destroyed and Grain  
Badly Damaged by Water; Horse-  
Drawn Wagon Answers Second Call.**

Two fire alarms from different sections of town at 7:30 this morning caused the fire department to do some hustling. A lot of smoke from smoldering woodwork in the home of Mrs. Mary Benge, corner of Measout and Second street, West Side, caused the first alarm and just as the firemen arrived a second alarm took them to the White Rock distillery on South Arch street. The second fire was by far the most serious, practically three stories of the plant being gutted, causing a loss estimated by officials of the company at nearly \$4,000.

Spontaneous combustion is given as the cause. A spark from rollers in the mill on the second floor is believed to have kindled the straw on the floor. Frank Stehle, one of the employees, discovered the blaze, which was burning fiercely when he entered the mill. He immediately knocked a hole in the partition between the distillery and the mill, and summoning assistance, played water on the flames with a small hose kept for such emergencies. Despite their efforts the fire gained headway rapidly. The mill was completely destroyed and bins, spoutings, belting and machinery in turn became prey to the flames. The flames ate their way from the flames to the fourth floor, gutting all three.

An alarm was sent in to the fire department but by the time they arrived the distillery employees had gotten the fire under control.

Two carloads of grain stored on the upper floors were badly damaged by water, though the fire did not reach it, thus increasing the loss.

The automobile truck was at the Benge fire when the second alarm sounded, but both truck and the East Side apparatus responded to the distillery fire. The loss at the first fire was comparatively nothing, the services of the firemen not being required to extinguish it.

**ACCEPTS CALL HERE****Rev. C. C. Buckner Will Assume  
Christian Pastorate on April 5.**

Rev. Champ Clark Buckner, pastor of Irving Park Christian Church at Chicago, has accepted the call of the Connellsville Christian Church. Word was received from Rev. Buckner yesterday stating that he will arrive here in time to assume charge on Sunday, April 5. Rev. Buckner preached a trial sermon here about three weeks ago. The following Sunday a congregational meeting was held and a unanimous call was extended to him.

There was some fear felt as to whether he would accept or not, as it was known that his present congregation was bringing influence to bear to have him remain, but officials of the local church have his assurance that he has accepted and will come to Connellsville.

Charging that his son, C. A. Trump, had attacked and beaten him in a brutal manner, Fred Trump yesterday afternoon last night while under the influence of liquor, H. P. Trump, 76 years old, swore out a warrant for the former's arrest before Alderman Laurence Donagan this morning. The younger Trump had not been found today when Constable Wilson sought to serve the papers.

According to the information the father tried to remonstrate with the son for his conduct, and the latter became enraged, picked up a chair and beat him about the face and body, inflicting painful bruises and cuts.

**SUE'S ALLEGED AFFINITY.****Mrs. Carrie P. Anderson Asks \$20,000

Since Frick Company's Exhausted  
Coal at McClellan, Newcomer Coal  
at Coke Company Will Work Out  
Their Stock of Coal. Other News.

SCOTTSVILLE, March 5.—The old  
painter plant of 10 acres at Scott-  
dale, Pa., which has been the  
headquarters of the Frick Coke Com-  
pany, is to be sold to a new owner,  
the Frick company has closed the plant  
but having exhausted all their coal  
holdings that had fed this plant for  
many years in the past. The Frick  
company is now busy engaged in  
leaving their yards of all stock coke  
and cleaning them up in order to turn  
the acres over to the Newcomer Coal  
company, which expects to  
operate a large number of them for  
some time to come in the manufacture  
of coke.

The plant has been leased by the  
Newcomer Coal & Coke Company,  
which has its headquarters in Scotts-  
dale, being one of the coke plants in  
which W. P. Frick is interested, and  
in which J. G. W. Newcomer of Con-  
necticut is a partner.

The company has held a good tract  
of coal in the vicinity of McClellan  
for several years. Among the coal ac-  
res which it holds are a 200-acre tract  
at Scottsville, Pa., that of D. W. Ritten-  
house, and a 100-acre tract at Scotts-  
dale, Pa. The company is pre-  
paring to have test holes sunk in pre-  
paring for the best location at which  
to drive openings into their coal, and  
expect to start work on the pit mouth  
within a short time.

## THIN PEOPLE CAN INCREASE WEIGHT

Thin men and women who would like  
to increase their weight with the aid of  
a little healthy "fat" should try eating a little Hargol with  
their meals for a while and note results.  
It is a safe, pleasant, health-giving "fat"  
which builds up the system and increases weight.  
Thin people should take Hargol with every  
meal for two weeks. Then weigh and  
measure again. It is a question of  
a few days or a week or what your  
fatness and health. The scales and  
the tape measure will tell the gain  
at once. At times are thin men or women  
as weak as a kitten from loss of weight.  
In the first four weeks down by following  
this simple method. And best of all,  
the new flesh stays put.  
Hargol does not make fat, but  
mixed with your food it turns the fat  
eaten and absorbed of what you have  
eaten into rich, ripe fat, producing  
nourishment for the tissues and blood—  
prepares it in an easily assimilated  
form which the blood can readily ac-  
cept. All this nourishment now passes  
from your body as waste. But Hargol  
stops the waste and does it quickly  
and makes the fat-producing contents  
of the very same meals and are eating  
now develop pounds and pounds of  
healthy flesh between your skin and  
bones. Hargol is safe, pleasant, ef-  
fective and inexpensive.  
Druggists sell it in large boxes—  
\$2.50 a box—a package—on a  
guarantee of weight increase or money  
back.—Adv.

creasing interest in the union evangeli-  
stic campaign each evening and the  
Presbyterian and Methodist Churches  
share Dr. J. D. Runk and Rev. J. E.  
Harrison are preaching respectively.  
The ministers urge further work on  
the part of church people in the pro-  
ceedings. These morning devo-  
tions from 9:45 to 10:30 o'clock are  
held wherever the white flag de-  
signates the houses which are open for  
two or three or more to meet. It was  
strongly urged at the churches last ev-  
ening that the sacrifice necessary for  
this might be made. Dr. Lawrence  
Kestner's Bible readings continue to  
hold interest at the Presbyterian  
church each afternoon at 3 o'clock.  
The mill men, a good many of them,  
are off for the rest of the week it was  
reported and among them are some  
of the most energetic and tactful of  
the personal workers.

COASTING TIME  
In spite of the plentiful snow of this  
winter the sport of coasting has not  
been engaged in so much as it has  
some other years when the snow was  
not so frequent nor so generous in  
quantity. However, this has been on  
account of few really good coasting  
nights. Last evening was one of the  
best of the season and the boys and  
smaller girls swarmed on the Mul-  
berry street slide. The risk of cross-  
ing Chestnut street which is much  
patronized by automobilists adds a bit  
of danger that seems to be enjoyed,  
although some of the autoists are said  
to give little concern to the coasters.

## Women's New Spring Hats

For the First Bright, Sunshine Days.

It's Spring in the spacious millinery section,  
and new hats peep at you from all sides—smartly  
simple models, whose chicness and inexpensiveness  
make them of immediate interest to women ready for  
their early hats.

Here are the cleverest little  
black hats ever distinguished by  
fashion's preference—some of  
them entirely in moire and taf-  
fetas, and others combined with  
straw and jet, and still others  
with net crowns and platings.  
Also the stunning Watsons mod-  
els, with their very low crowns  
and flaring brims, bedecked with  
tiny flowers and ostrich feathers.  
And here are the graceful sailors  
and little tailored hats so ap-  
propriate for early wear.

The pleasant part

## AT THE THEATRES.

## THE SOISSON.

## "FIREFLY" IS PRAISED

Western Paper Speaks Highly of Company Here on Tuesday.

"The Firefly," which appears at the Soisson on Tuesday, made a hit in Alton, Iowa. The following criticism appeared in one of the leading papers there the day following the performance:

The capacity audience that packed the Moline Theatre last night, one of the largest theatre crowds of the season, left with the conviction that the diminutive prima donna, Miss Edith Thayer, in the title role of "The Firefly," is a star of first magnitude. "The Firefly" proved to be an admirable production, not heavy enough to be called an opera, and entirely too good to be termed musical comedy.

Miss Thayer is something over four feet of twinkling womanhood, and a whole opera house of glowing voice. It was full and rich and her songs were rendered with more grace and charm than could be imagined from any other prima donna. The unaffectedness of Miss Thayer's efforts is one of her most pleasing assets. First, there is heard behind the scenes a melodious voice of amazing power, and when she appears as a tiny Italian street singer, one wonders how one so diminutive can produce such a tone.

Miss Thayer is given her best opportunity in her "Glimpse of a Firefly," and the song "Love is Like a Firefly" and the song "When a Maiden Comes Knocking at Your Heart," are melodies which will be whistled on the street for weeks to come. Miss Thayer is given excellent support with a chorus of people that can sing "The Firefly" song, was rendered with good effect by Thelma Fair and Charles H. Flowers and drew numerous encores. One of the high-lights of the performance is Edith Thayer in her song, "Sapphire Song."

Most of the torrid human work of the performance is done by "The Firefly" and the song "When a Maiden Comes Knocking at Your Heart," are melodies which will be whistled on the street for weeks to come. Miss Thayer is given excellent support with a chorus of people that can sing "The Firefly" song, was rendered with good effect by Thelma Fair and Charles H. Flowers and drew numerous encores. One of the high-lights of the performance is Edith Thayer in her song, "Sapphire Song."

"The Rosary" comes to the Soisson, matinee and night, Friday, March 6. It has a great heart story that appeals to all. Through all the heart-break and tears, there is a strong, strong, and unquenchable, clear and serene, moves the wonderful figure of a modern Catholic priest whose life has been dedicated to God and the service of his fellowmen. It is his clear spirit, vision that sees through the web that has been woven about the two people whom he loves and it is his faith and God-given power that sets them free.

It is a wonderful, preachment of faith's mighty power, of the saving grace that lies in all of us. The tremendous story, yet, set in its simplicity, is interspersed with the higher threads of romance, of the sort that one is to take away from the theatre and muse over in idle moments.

## THE ARCADE.

THE FLIRTING GIRLS. As a closer to the feature week at the Arcade, Manager Ed Hall opens today with a musical comedy company direct from New York City, comprising 10 people. The production presents Joe Burdell and Billy Burnett & Company in "The Flirting Girls." Joe Burdell and Billy Burnett are the "Dukes of Hamburg." Miss Foster is "The Queen" and Mr. Edwin is "The Queen's Friend." The "Flirting Girls" are Pansy, Sunflower, Twolip, Dandyline, Jack Rose and Rose Bud. The usual numbers are given of the Cabaret Camp Meeting Band, Chattanooga, Good-Bye Summer, Fall River Line, Would You Take Me Back Again? "Back to Caroline," etc. This ought to be a very interesting program.

## EAT LESS MEAT

## IF BACK HURTS

Take a Glass of Salts to Flush Kidneys If Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney regions, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations in such cases, cleans and stimulates them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone, makes a delightful effervescent lithia drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

## Little Heroes of Dickens' Quaint Stories Inspired the Out-of-the-Ordinary Styles in This Thursday to Saturday Night Display of New Wash Suits

Thursday, Friday and Saturday in the Men's Clothing Store, a display of the new wash and wool suits for boys.

A feature of the year in boys' wear are Oliver Twist, Dombey and Nickleby suits—originated and registered by the "Regatta" people and exclusive in Conneltsville to this store.

These distinct models are quaint, attractive and out-of-the-ordinary. They are the newest style-note originated in years.

The Dickens Characters' suits are in wool, linen, silk combinations, corduroy, velvet and fine cottons.

The new Conservative clothes—serge and novelty weave garments for larger boys; the rompers, dressers and blouse suits for tots will have their showing with the others.

Special orders for individually made suits for boys and tots will have expert attention these three days.

## A Marvelous Offer

This \$2.50 Suit Case \$1.65

We secured them from a big maker at a special price, which enables us to hold this wonderful sale. These suit cases are made from the new tanoid fibre, and steel frames in lid and body, together with the strong angle irons at all corners, make them wear better than many leather suit cases. Have sturdy handles; good lock and catches; two inside straps. \$2.50 suit cases for \$1.65.

To demonstrate the almost incredible durability of these suit cases, we are showing in the men's clothing store one of them supporting absolutely by its own strength a 250 lb. blacksmith's anvil.
